From the Desk of the Chief Executive Officer

COVID-19 is causing both a health crisis and an economic one. First and foremost we strongly encourage everyone to stay safe, COVID-19 kills. Over 375,000 people have been infected with the virus and over 16,000 have died. Please, please stay safe.

The impact of the virus on the economy is devastating. We are working indigently to provide information to members about programs available to help which can be accessed on reginachamber.com. If you cannot find answers within the information on our site please contact us and we will try and assist as best we can.

We are working on a number of initiatives and have been talking to government throughout the course of this pandemic and will continue to do our best to find solutions to challenges being faced by our members, most notably cash flow.

Please contact us if we can assist:

Kali McDonald - kmcdonald@reginachamber.com

Please stay safe!

John Hopkins

Due to the COVID-19 outbreak, we will be postponing all of our upcoming events until later this year. The most important thing we can do is protect our membership as much as we can from coronavirus.

Please contact us at info@reginachamber.com if you have any questions!
