With just five months remaining, Canadian Western Agribition (CWA) is bustling with preparations for its highly anticipated 52nd show, scheduled from November 20-25, 2023.

In an update shared during the April 2023 Annual General Meeting, CWA proudly presented substantial growth and resounding success. Notably, the organization achieved record-setting revenue of \$4.74 million, and with a profit of over \$83,000, it showcased a turnaround of over \$400,000 compared to the previous year.

The success of Agribition 2022 was evident across the board, with record-breaking ticket sales for the rodeo and general admissions, as well as impressive cattle sales results.

These accomplishments contributed to a substantial economic impact of \$96.5 million for the province, solidifying Agribition's status as an industry leader in the agriculture and livestock sector.

Looking ahead to the upcoming show, CWA has plans to introduce new programs and events that will captivate attendees. One highly anticipated addition is the return of Tuesday night entertainment, promising a memorable experience. Further details will be revealed soon.

This year, CWA is thrilled to present its inaugural Canadian Animal AgTech Awards. This groundbreaking event will celebrate the revolutionary technologies that are transforming the agriculture industry. It promises to be a unique platform, recognizing the game-changers and innovators shaping the future of farming.

Adding to the excitement, Agribition will debut the Miss Rodeo Agribition competition, showcasing the talent, grace, and dedication of rodeo royalty. Additionally, the highly anticipated Golf Tournament on July 31st, 2023, will provide a perfect opportunity for networking and friendly competition. With these new ventures, Agribition continues to evolve, combining tradition with innovation. As an industry leader, CWA remains committed to pushing boundaries and creating unparalleled experiences. The financial success of 2022 and the introduction of

these new programs solidify Agribition's position as a must-attend event in the agricultural calendar.
